

TECH CHECKLIST

Please verify all items before confirming

Driver Name: _____ Car Number: _____

Car Year: _____ Make: _____ Model: _____

Ensuring that your car is suitable for track is now YOUR responsibility. Track conditions strain our cars considerably more than street or highway driving. This is a brief overview of items to be checked prior to your arrival. Please note that this is just a starting guide and that you, your car, and others potentially will all benefit from your thoroughness.

Please review each item before checking each box. When complete, please sign below to certify that you have complied with the self-tech. If you are unable to complete any item listed below or do not feel comfortable or capable in doing so, please visit your mechanic who can perform these tasks for a nominal fee.

Wheels & Tires:

- Tires inflated
- Good tread (above wear markers)
